

Share knowledge through audio technology

## AMPLIFY YOUR IMPACT IN THE WORLD'S HARDEST-TO-REACH COMMUNITIES

Amplio's mission is to empower the world's most vulnerable communities through knowledge sharing. Amplio Talking Book technology and programs enable international organizations, local NGOs, and government agencies to amplify their reach and share audio content on-demand with people in remote rural areas.

“

*An innovative, low-cost technology to influence key behaviors that impact the lives and opportunities of the most vulnerable children and families.*

Susan Ngongi Namondo, United Nations Resident Coordinator in Uganda and former UNICEF Representative in Ghana

### What is the Amplio Talking Book?

- An equitable, gender-sensitive device that delivers audio messages on-demand in any language.
- Can be programmed and reprogrammed with hours of targeted content on any topic(s).
- Designed for people with low-literacy skills.
- Collects quantitative usage data and qualitative user feedback for program monitoring and evaluation.
- Recognized for effectiveness in improving knowledge and behavior change across key development sectors.

## Launch a Talking Book Program

Implement Talking Books as a stand-alone solution, layer with other communication tools, or integrate into an existing program. Along with Talking Book devices, Amplio's service fee includes:

- Set up and configuration for Talking Book hardware and software, training, and ongoing technical support.
- Access to the Amplio Suite, including our audio content manager, dashboard, and a learning portal with interactive lessons and job aids.
- Quarterly data summary reports and conference calls to support monitoring and evaluation for program impact.

### Talking Book Features

- Durable, portable, and easy-to-use
- Built-in speaker for group listening
- Microphone for recording user feedback
- Embossed icons for the visually impaired
- USB port for smartphone updates
- Runs on AA, D, or rechargeable batteries

***How many Talking Books?*** Amplio can help you to determine how many Talking Books you need for the audience you want to reach. Depending on the program design, a single device can serve 100 listeners or more.
